

## INFORMATION FOR CONTRIBUTORS

Please provide manuscripts both electronically and in a printed form. Print on one side of the paper only and number all the pages consecutively. The following information should be provided on the first page: the title of the article (or, in case of reviews, the title of the book under discussion, the name of the publisher, the place and date of publication as well as the number of pages), the author's full name and address (including email address) and an abbreviated title of the paper (not exceeding 45 characters including spaces). Only original papers will be published and a copy of the *Copyright Transfer Statement* and of the *Optional Open Article License Agreement* will be sent to the authors of papers accepted for publication. Manuscripts will be processed only after receiving a signed copy either of the statement or of the agreement. The manuscript should be accompanied by a list of five keywords and an abstract of about 100 words.

Files can be submitted in doc format (e.g., Word, OpenOffice.org Writer, etc.) or standard L<sup>A</sup>T<sub>E</sub>X. In addition to the source files, please also send the *pdf* version of your final manuscript. If other word processing software is used, let this software create a doc or L<sup>A</sup>T<sub>E</sub>X conversion and submit these together with the original source files. L<sup>A</sup>T<sub>E</sub>X users are requested to send *all* their original source files (tex, sty, bib etc.) and the pdf version.

Tables and Figures should be numbered consecutively and provided with concise captions. Please indicate the preferred position of the Table or Figure in the text by inserting a line "Insert Figure XX here". Please bear in mind that all Tables and Figures eventually have to fit the following text area, either portrait or landscape: 120 mm × 175 mm. Font size of tables/figures: 9 pts. The paper will be printed in black & white. Please make sure any illustrations are still meaningful when printed in black & white. Graphics should be supplied in electronic form or as a clean, high-quality hard copy to enable scanning if necessary. We accept the following graphics file formats: EPS, JPG, PSD, TIFF. These files must have a final resolution of at least 300 dpi. All graphics files must be submitted separately from the document file. Carefully check all graphics for errors before submission as the typesetter often cannot make corrections in these electronic files.

Reference to a publication should be made by the name of the author, the year of publication and, when necessary, by page numbers in the following ways:

- ... as described by Schmidt (1967)...
- ... as referred to by Hoover (1967, 56–78; 1976, 43)...
- ... mentioned by several authors (Elgar 1978, 77; Williams 1981, 154–6).

An alphabetically arranged list of references should be presented at the end of the article as follows. All first names of authors/editors are to be written out in full:

- Bárczi, Géza 1958a. Magyar hangtörténet [The historical phonology of Hungarian]. Akadémiai Kiadó, Budapest.
- Bárczi, Géza 1958b. A szótövek [Word stems]. Akadémiai Kiadó, Budapest.
- Brockhaus, Wiebke 1995. Skeletal and suprasegmental structure within Government Phonology. In: Jacques Durand – Francis Katamba (eds): *Frontiers in phonology: Atoms, structures, derivations*. 180–221. Longman, Harlow.
- Cole, Jennifer 1995. The cycle in phonology. In: Goldsmith (1995: 206–44).
- Goldsmith, John A. (ed.) 1995. *The handbook of phonological theory*. Blackwell, Cambridge MA & Oxford.
- Kaye, Jonathan – Jean Lowenstamm – Jean-Roger Vergnaud 1990. Constituent structure and government in phonology. In: *Phonology 7*: 301–30.
- Tomioka, Satoshi 1997. *Focusing effects and NP-interpretation in VP-ellipsis*. Doctoral dissertation, University of Massachusetts, Amherst.

For marking subsections decimal notation should be applied. Do not use more than four digits if possible. Citations in the text should be enclosed in double quotation marks (" " in case of a paper written in English, „ “ in German and « » in French). Examples within the text should be marked in italics. Meanings are to be rendered between inverted commas ( ' ' ). If glosses are given morpheme by morpheme, the initial letter of the gloss should be placed exactly below that of the example. Grammatical morphemes can be abbreviated in small case letters connected to the stem or the other morphemes by a hyphen. No period should be applied in such abbreviation. For example:

- (1) (a) A sólymaid                    elszálltak.  
          the falcon-gen-pl-2sg away-flew-3pl  
          'Your falcons have flown away.'

Examples can be referred to in the text as (1a), (1a–d), etc.

One proof will be sent to the author. Please read it carefully and return a list of your requests for corrections by email to the Associate Editor within one week.
